

## Montreal Symphony Orchestra On Air

This is the Montreal Symphony Orchestra which will broadcast a Friday Symphony Hour every Saturday between 6:30 and 6:50 p.m. E.S.T., starting Saturday, Feb. 21, over the network of the Canadian Pacific Railway Company's Telegraphs from Winnipeg to Halifax. It will play symphony concerts of a very high order and the conductor, Mr. Dariusz Chelmski, Dean of the Faculty of Music, McGill University, (Montreal) has drawn up a series of programmes which will be representative of three centuries of music.

The programmes will be chronological in character and each will be representative of music written between the 17th century and the present. They will begin with works or part of works by Bach, Handel, Haydn or Mozart, continue with Beethoven or Brahms, then go on to Wagner or Tchaikovsky, and conclude with the moderns. English composers will be prominent

in the concerts, including such moderns as Elgar, Holst and Vaughan Williams, while an early English Tudor composer will also be heard.

In this way the public will be representative of the best in music for the last three centuries, in which the art of composing reached its height, and every listener following the ten programmes already projected will acquire a knowledge of music which it would take the ordinary concert goer years to get apart from the enjoyment of listening.

The Montreal Symphony orchestra has earned high praise from critics, and its range of subject matter as well as its perfection in technique is remarkably well developed. The reports will be broadcast from the Hall, in Montreal, and are made possible by the Canadian Pacific Railway.

## Hanna Presbytery Meet in Oyen

### Two Day Session Ends Tonight

A meeting of the Hanna Presbytery of the United Church of Canada, opened here yesterday with the following ministers and lay delegates in attendance.

Rev. V. M. Gilbert, Rockyford, Rev. H. D. Leitch, Drumheller, Rev. F. Chapman, Hanna, Rev. H. S. McDonald and Mr. R. R. Fraser, Munson, Rev. George Steele and Mr. Alex. Morrison, Dolin, Rev. R. W. Griffiths, Cochrane, Rev. J. V. Howey, Hanna, Rev. Dr. W. S. Fergus, Mr. Dan Fawcett and Mr. John Hargrave, Hanna, Rev. E. S. Parker, Sunnyside, Rev. D. MacGregor and Mr. C. A. Aggett, Youngstown, Rev. J. D. Wallatt, Ceread-Chinook, Rev. H. C. Wood and Mr. Charles L. Dunford, Oyen.

Dr. Charles Endicott of Saskatoon, associate secretary of the Missionary and Maintenance Fund, and Rev. Thomas Powell, of Calgary, superintendent of missions, were also present, as well as a number of laymen of the Oyen pastoral charge.

Rev. H. C. Woods, chairman, opened the meeting and Rev. H. D. Leitch of Drumheller was appointed secretary pro tem on account of the absence through illness of the secretary, Rev. A. T. Bell.

A report of the Missionary and Maintenance committee was presented by the convener, Rev. H. D. Leitch, which showed that while the presbytery had not raised its full allotment, it had raised a very creditable amount taking into consideration the unusual conditions prevailing.

It was recommended by Presbytery that congregations make good use of the Missionary Record and all literature sent out by the United Church. That all boards be urged to use the duplex envelopes for both local and missionary funds. That ministers and congregations use "nothing" or more systematic methods of giving. That individual giving by men, women and children be adopted in preference to only one envelope being used for a family. That an every person envelope for both local and M. and fund be made in the fall of the year, preferably in the month of November, for the following year. That if conditions warrant it, each field endeavor to make up in the year 1931 in addition to its allotment, the deficit of 1930. That each congregation remit monthly to the general treasurer of the M. and M. fund.

Rev. H. S. McDonald of Munson, gave a particularly fine survey of the presbytery showing the need of more accurate statistics in regard to each Pastoral charge and the desirability of certain adjustments to be made in different territories.

Rev. George Steele of Dolin and Rev. H. C. Woods of Oyen, resigned their pastoral charges. A lengthy report of the Home Mission committee was given by Rev. J. V. Howey of Hanna. New arrangement of fields in the Presbytery was made as follows: Wayne, Wayne, Hec-chie, Lehigh and East Gulee, Delia-Delia, Verdant Valley and Michichi. Ceread-Chinook—Ceread, Chinook, Laidlaw, Kildelaw and Farming Valley. Oyen—Oyen, Glendon, Hudson Heights, Excel, Benton and Superior.

The Home Mission committee of the Presbytery recommended to the Home Mission board

## Elections in Cereal, Bertawan and Acadia Municipal Districts

Last Saturday was nomination day in Municipal Districts, and as a result of nominations at annual meetings held in the district, elections will take place next Saturday in Cereal, Bertawan and Acadia municipal districts, as follows:

In the municipal district of Cereal, No. 212, Wilson Mortimer will oppose Carl O. Olson, in Division No. 2; and Richard T. Hogan will oppose Alf Gibson in Division No. 4. E. W. Nichols was returned by acclamation in Division No. 4.

In the municipal district of Bertawan, No. 271, Albert A. Stewart will oppose Harry Hunter in Division No. 2; Charles Wilson (Div. 5) and A. Muser (Div. 4) were returned to office by acclamation.

In the municipal district of Acadia, No. 241, there will be a three-cornered contest in Division No. 2, where L. J. Jones will be opposed by M. E. Murphy and H. A. Porter. In Division No. 3, A. J. Thurston, past reeve is opposed by A. C. Boulter. In Division No. 6, A. F. Kollon was returned by acclamation.

In the municipal district of Golden Centre No. 272, three councillors were returned by acclamation. In Division No. 2, Bruce Morris; in Division No. 4, H. Stewart; in Division No. 6, A. Jorgenson.

## Oyen Girls Organize Soft Ball Association With Two Teams

Young ladies of Oyen met at the home of Mr. and Mrs. A. O. MacArthur on Monday evening and formed the "Oyen Ladies Softball Association". Miss Alberta Wenger was elected president, Miss June Walker, vice-president and Miss Helen Gripp secretary.

After a discussion it was decided to have two teams, a senior team to be known as the "Oyen Grads" and a junior team to be known as the "Oyen Elks" with Miss Helen Gripp captain of the former team and Miss Violet Love captain of the latter. Mr. MacArthur will manage both teams.

The management will be glad to hear from neighboring clubs re forming a ladies softball league for the coming season.

#### A Story of Fifty Years

"Montreal, February 16—Fifty years ago today incorporation of the Canadian Pacific Railway took place. George Stephen, afterwards Lord Mount Stephen, was the company's first president. The company deposited with the Dominion Government, at Ottawa, a cheque for \$1,000,000 as a guarantee that it would fulfil its contract to complete the railway to the Pacific Coast. This pledge was completed in five years instead of the ten the contract called for."

This brief but significant news despatch appeared in the daily newspapers of Canada on February 16 last. It recalls an historic incident, a milestone in the history not only of Canada but of the world. It once carried the mind back, but because of all that backward glance disclosures, it inevitably carries the mind forward to a contemplation of what the fifty years may unfold. It impresses one with the tremendous developments and possibilities of a span of only fifty years.

Fifty years ago the project of a transcontinental railway across Canada was viewed with scepticism by thousands in Canada, and was regarded as the maddest kind of a venture in Great Britain. Men prominent in public affairs declared it would never earn its axle grease. The country it was to traverse was described as a wilderness, partly desert, incapable of successful cultivation and settlement by white men, followed by miles of snow-capped mountain peaks and ranges.

That success rather than failure followed the great undertaking can be credited to a few men, and to the determination, the courage, the energy, resource, and grim, unshakable determination. In some respects they were ruthless; their methods were not always above suspicion, but they had a vision and a driving force to achieve their goal regardless of any and all obstacles. Individually they staked their all on the success of the enterprise, obliterated the word "failure" from their lexicon, and won. Canada, the world, knows the result.

The railway made a new nation. It opened up an empire. It altered the trade routes of the world. It brought the Orient to the Occident, and the Occident to the Orient. The enterprise initiated fifty years ago by a new-born Dominion of a few millions of people, has amazed the world. It has become the greatest transportation system in the world, with its fixed bands of steel not only crossing and criss-crossing Canada, and extending well into the United States, but with its vessels navigating the seven seas, calling at the ports of all nations, and circumnavigating the globe.

The Canadian Pacific Railway has helped to make Canada what it is. It has made and unmade Canadian Governments. The history of the Canadian Pacific is in part the history of modern Canada. The success of the railway has been bound up in the development, the prosperity, the success of this Dominion. The management of the railway has always recognized that fact, and it has been pro-Canadian at all times and in all its policies. It has made mistakes, of course; it has been selfish, even dictatorial at times, but it has always been efficient.

The Canadian Pacific has been created and developed under the presidency of four men, Sir George Stephen (later Lord Mount Stephen), Sir William Van Horne, Sir Thomas (later Lord) Shaughnessy, and Mr. Edward W. Beatty. The history of the railway may likewise be divided into four periods, or possibly three as the first two merge into one. First the period of organization of the company, early financing, and actual construction under Stephen and Van Horne; second, the period of well organized, highly efficient operation under Shaughnessy, with well defined policies of branch line construction as overseas, opening new territory, and the establishment of mercantile fleets and express services; third, and coupled with a vigorous continuation of the Shaughnessy policies, what may be termed in the absence of a better word, the diplomatic period under Beatty wherein up-to-date railroading has been strengthened by securing the goodwill, the admiration, the co-operation of the general public, the elimination of those feelings of suspicion and antagonism which undoubtedly marked the relations of the people and the railway in the earlier days.

And in the story of these fifty years is there not a lesson and an inspiration for the people of Canada? The railway had its periods of difficulty and depression, just as individuals and nations experience them, but it surmounted them. The makers of the Canadian Pacific did not shorten their time to a year or two, or five or ten years; they looked into the future and planned and built with courage and confidence. They have had their reward. So, too, should the Canadian people maintain the forward look, act with courage and decision, remain confident. Canada has done great things in the past; it can do greater things in the years to come.

#### A New Floor Covering

"Saffolium" derived from a plant resembling a sundew, may some day take its place on floors as a rival to linoleum, if experiments now being conducted by the United States Department of Agriculture are commercially successful.

### When Food

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless liquid, pleasant, efficient and harmless. But it kills excess acids. It has

#### Invents "Moon" Rocket

Frank Pelikan, an electrician from the town of Uppes, says he has built a rocket with electro-magnetic propulsion which "ought to be able to reach the moon in three weeks." He claims it is the "Jupiter Aero-plane" people.

It is the quick method. Results come almost instantly. It is the only method. You will never use another when you know. Be sure to get genuine Phillips' Milk of Magnesia prescribed by physicians for over fifty years in correcting excess acids. See bottles—any drugstore—The genuine is always made in the U.S.A. made in tablet form. So look for the name PHILLIPS on wrapper and bottle.

#### A Scientific Mystery

### Source Of Comets Rays Has Not Been Discovered

Discovery of comets rays in sunshine—the same rays that penetrate about 700 feet into earth—is described in advice received at New York from Vienna.

The communication is from Prof. E. Späth, president of the Chemical Society, Physical Society, and is sent to clear a misunderstanding about the report made recently to the society of Prof. Victor F. Hess, of the University of Zurich.

Vienna dispatches had it that Professor Hess announced the discovery of comets rays and that his talk created a sensation among scientists. But Prof. Späth points out that Dr. Hess did not claim to have discovered comets rays, but that he found 18 years ago, but that he had evidence that a small percentage of these rays came from the sun.

Their origin has been one of the great scientific mysteries. The fact that most spectroscopes used to detect them showed as many as eight rays as the day was held by some scientists to eliminate the sun as a source.

#### BREAKS UP GAS

### IN THE STOMACH

Don't suffer from dangerous gas pressing around your heart, from nervous, acidity, bloating or pain of indigestion. Stop worrying. Take a little Blandin's Magma. It breaks up gas, soothes the stomach, soothes the bowels, and soothes the nerves. It breaks up gas, soothes the stomach, soothes the bowels, and soothes the nerves. It breaks up gas, soothes the stomach, soothes the bowels, and soothes the nerves.

#### Honored By Italy

### P. C. Elford Appointed Member Of Executive For Fifth World's Poultry Congress

P. C. Elford, Dominion Poultry Husbandman and Past President of the World's Poultry Science Association, under whose auspices the World's Poultry Congresses are held, has been specially honored by the government of Italy, who appointed him a member of the executive for the Fifth World's Poultry Congress which meets in Rome in 1933. Mr. Elford has also been asked to take charge of organization of the Canadian delegation to Rome. From previous indications the next Congress will fully equal the success of last year at London, England.

One of the most effective vermin-killers is Blaudin's Worm Powders. They will not only clear the stomach and bowels of worms, but will prevent the worms from multiplying. They are very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will irritate the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

#### American Films In Britain

### Eighty-Five Per Cent. Of Motion Picture Films Shown In England Are Of American Origin

Eighty-five per cent. of the motion picture films shown in England are of American origin, and only 7 1/2 per cent. British, Colonel John A. Cooper, president of the Motion Picture Distributors of Canada, testified before the investigation into affairs of the motion picture industry in Canada at Toronto. Investigation is centered around affairs of the Famous Players Canadian Corporation and its subsidiary companies.

Only about 80 Canadian pictures had been made since 1918, Col. Cooper stated.

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

#### Looking For Samples

A Scot received a complimentary ticket to the motor show. Stopping in front of a magnificent limousine he casually inquired the price. It was \$9,000. Sandy shuddered and moved on. The next car he came to was \$4,500; he passed on and saw cars priced at \$2,000, \$1,000, \$750 and \$500. At the end of the row were a few of the "baby" type. Sandy looked at the salesman hopefully. "Are these your free samples?" he asked.

It may be mixing metaphors, but the man who puts his shoulder to the wheel seldom has to put his nose to the grindstone.

It taken just 365 days for a new year to change from a sort of Cupid to a sort of old man with a scythe over his shoulder.

A white otter was recently trapped in New Brunswick.

W. J. W. 1878

#### Links With The Past

### Scientists Constantly Learning New Facts About Climate and Vegetation

Buried forests, the vestiges of past ages, come to light now and then to reveal new facts about the climate and vegetation. Trees which are known to exist today only in tropical climates have been found far beneath the surface in temperate or Arctic sections, indicating that a climate suitable for their growth existed in these regions at one time.

Tree fossils have been found in Antarctica, for example, and their discovery indicates that the Antarctic Continent, now in its ice ages, possessed a temperate climate in remote ages. Possibly it once supported a varied plant and animal fauna.

A recent discovery of similar significance was made in Northern Alberta, where a government engineer of the Canadian Department of Mines came upon several fossil trees. Their age was estimated at between 15,000,000 and 20,000,000 years. The real importance of the discovery, however, lay in the fact that at least one of the trees is of a type that grows today in Japan, according to Dr. J. W. Bailey of Harvard University. This is considered evidence that North America and Asia were at one time joined.

One feature of the discovery in Alberta was the fact that the trees were in a state of perfect preservation. The growth rings could be counted, the leaves were in fair condition and the trunks could be cut with a jack-knife. It seldom happens that plant or animal fossils are found so well preserved.

When cases the soft parts decay very rapidly, before a protective layer of sand or clay can fall over them, while the hard parts are changed chemically. In making it is surprising to find that the material of the bones has been replaced by silica or some other mineral.

Persian Balm.—There is nothing like it for creating and preserving a state of perfect relaxation. Cooling, soothing, it soothes and dispels all roughness and irritation. It is a most valuable tonic. Delicately fragrant it adds exquisite charm to the most finished application. Chastity women inevitably choose Persian Balm. A velvety smoothness it makes the skin soft and in texture. Recommended also to toilet and regulate the hands. Truly a perfect toilet requisite for every woman.

#### Leprosy Being Cured

### Eleven Patients Recently Released From U.S. Institution

Quietly, as ships long docked slip out into a strange sea, nine men and two women have left the government leprosy hospital at Carville, Louisiana, to face a world which some of them have not seen for two decades.

Each carried a "certificate" attesting they have been cured of leprosy, a disease dreaded and shunned since Biblical times. Some will take new names and make new lives—the government will ask no questions. Their departure brightens the hope of 330 other patients—who will bring the total number to be released in the last few years to 63.

For Catarrh.—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can outwardly. Sufferers from catarrh will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

#### The Family Doctor

The family doctor is coming back, says a physician who has been making a national survey of the medical situation. He has been ignored lately in favor of specialists on one hand and self-doctoring on the other.—Brookton, Mass., Times.

#### Telephones In Canada

The estimated number of conversations by telephone in Canada during 1929 was 2,550,000,000, including 851,000 long distance calls. For every 100 of the population in that year there was an average of 15 telephones.

Four-fifths of the automobiles owned in Brazil were bought on time.

Put you on your feet!

MINARD'S LINIMENT  
"KING OF PAIN"

## Harsh, Gripping Purgatives Are Dangerous!

#### Soviet Plan a Failure

### Engineer Says Five-Year Idea Has Entirely Collapsed

Philip Hart and Mrs. Hart, of Newark, N.J., stepped down the gang-plank of the liner New York and heaved hearty sighs of relief. They were back where shoes cost less than \$60 a pair, and butter not quite \$6 a pound. They had come back from Russia.

Harty, mechanical engineer, who went to Russia last August to investigate rolling mills in Siberia had much to say, and little of it was complimentary to the Soviet or the so-called five-year plan of social and industrial rehabilitation. "The five-year plan is not collapsing," Harty remarked. "It has collapsed. The people are in rags. There is depression everywhere."

#### To Test Hudson Bay Route

### Would Increase Initial Grain Movement To Not Less Than 5,000,000 Bushels

Asking that Federal Government transportation through Hon. Dr. R. J. Manion, Minister of Railways and Canals, give consideration to the advisability of increasing the initial grain movement to not less than 5,000,000 bushels in order to adequately demonstrate the Hudson Bay route as a "viable and necessary trade outlet for export farm products," the Saskatchewan traffic council unanimously passed a resolution to that effect.

London school children collected 8,856 pounds of tinful, worth \$1,625, for a hospital last year.

#### Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

#### Smothering and Fainting Spells

### Everything Would Turn Black

Mrs. Andrew Black, Harcourt, N.B., writes: "I had been troubled with smothering and fainting spells and everything in front of me would turn black, and I would fall down in a faint and be unconscious for several minutes. I did not know what to do, until one day I was reading where Milburn's Heart and Nerve Pills had helped so many people and decided I would give them a trial. I used four boxes and found they help me wonderfully."

## TOWN .....

**For Instant Ease From COUGHING take BUCKLEY'S**

**WORLD HAPPENINGS BRIEFLY TOLD**

Mrs. Eubule Gladu, aged 77, only sister of Louis Riel, famous leader of the uprising in the Canadian north-west, is dead.

His Majesty has honored the Earl of Bessborough, new governor-general of Canada, by conferring upon him the Grand Cross of the Order of St. Michael and St. George.

The Earl of Bessborough, newly appointed governor-general of Canada, will sail for Canada on the Canadian Pacific steamship, "Duchess of Bedford," on March 27.

Lieutenant-General Bernheim, of Belgium, who commanded the Belgian troops on French soil during the great war, died recently in Paris.

Lord Bledisloe, governor-general of New Zealand, requested that his official salary be reduced ten per cent. for the public interest. Premier Pories gratefully accepted his offer.

The sum of \$100,000,000 has been added to Great Britain's debt fund by the House of Commons, which accepted recommendations of R. H. Margaret Bondfield, Minister of Labor, for new unemployment loans.

Emile St. Godard, The Pas, Man., won the best time prize in the eighth New England dog derby championship at Laconia, New Hampshire. His brother, Leo, won the handicap time prize.

Russian winter wheat acreage is estimated by the United States Department of Agriculture, to have increased 19 per cent. over a year ago, when the area was estimated at 25,172,000 acres.

Great Britain's tragic dirigible R-301 is to fly again, in spirit. The Zeppelin works at Friedrichshafen, has bought the metal remains of the ship and will melt them down and fashion into parts for the new German dirigible LZ-129.

#### Praises Irish Linen

His Majesty King George Makes Purchases in Belfast

"I prefer Irish linen and every shirt I have come from Belfast," says His Majesty, when, with Queen Mary, he visited an exhibition of the Linen Industry Research Association in London, England.

Examining table linen that had been washed in various laundries, the king remarked: "Some laundries use up linen, but I suppose when it comes back with holes it is good for trade."

His Majesty has just placed several acres of the royal estate at Sandringham, Norfolk, under cultivation for flax, though most English land-owners say that flax takes more out of the earth than it yields.

**Canadian Printers and Publishers**  
Out of the 753 printing and publishing plants reported in Canada in the 1923 census of industry, 296 were located in Ontario; 135 in Saskatchewan; 76 in Alberta; 67 in Manitoba; 12 in Quebec; 61 in British Columbia; 11 in Nova Scotia; 21 in New Brunswick; and 4 in Prince Edward Island.

The man with a private grievance usually becomes a public nuisance.

Tosour, the largest oasis of North Africa, contains 250,000 palm trees.

#### WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unsightly blotches on the face, eyes with yellow tinge and a general languid feeling? This indicates a torpid liver.

Headache, Dizziness and Biliousness rarely follow. You must stimulate your lazy liver, start the bile flowing with Carter's Little Liver Pills.

They also act as a mild laxative, purely vegetable, and free the bowels and poisonous drugs, small, easy to swallow, and not habit forming. They are not a purgative that causes pain, unpleasant after effect following on the contrary, they are tonic. All druggists 25c and 75c per box.

W. N. U. 1876

#### Britain's Naval Program

Dropping Away Behind Canada and Italy, Which Causes Alarm

Indications that the Labor Government is becoming concerned over the naval construction programs of other powers were again forthcoming from Rt. Hon. A. V. Alexander, first lord of the admiralty, in a speech at Newcastle, England.

"We have pleaded for disarmament," the first lord said. "I think you can go too quickly in this matter unless you can get other countries in Europe to go as quickly as you. You will find a steady decline in our naval expenditures and a steady rise in almost every other country. You begin to ask whether it is a sane policy."

In the House of Commons a few days ago the first lord pointed out that if Italy and France continued to increase their naval construction programs, Great Britain would have to reconsider her own. While the British program followed the ordinary replacement requirements, she only 46,000 tons under construction, France has 100,000 tons under way, and Italy 100,777 tons.

The British construction program is well under the replacement, or replacement, of the British navy, which may legitimately carry out under the terms of the London Naval Treaty.

#### What Her's Keep Costs

The ten-year average cost of the feeding laying hens at the Lennoxville Experimental Station of the Dominion Department of Agriculture is \$2.43 per hen, which means that with eggs selling at an average of 35 cents a dozen, takes 686 dollars in eggs, to pay for the keep of the laying hen, eggs laid in excess of that number being profit.

#### Canadian Yellow Birch

Yellow birch is commercially the most important hardwood in Canada, forming more than one-third of the hardwood lumber produced in the Dominion.

A French air service in South America carries 6,917 miles.

#### When the King Travels

First Class Fare and Payment For Royal Train Is Collected

Most people believe that the royal train is the property of the King and that he and the other members of the Royal Family travel in it. That is not the case. Each of the four railway groups maintains a train for the special use of the King and Queen, and when it is in commission the King pays 13s. 4d. a mile in addition to first-class fare for all the royal party and the members of the suite and the household who accompany them. The royal train is fitted with every imaginable contrivance for comfort. The color scheme of the interior includes much gold and white. Polished teak double doors open out to a square vestibule which leads to the King's smoking room. The furniture of this room is in handsome mahogany upholstered in apple-green Morocco leather. Next to the smoking room is the day compartment, where the furniture is covered in green silk rep and Jacobean tapestry. Then comes the King's bedroom with satinwood furniture. Farther on is the bathroom, which was installed during the war, when the King's Majesty lived in the train for a week at a time, visiting munition factories and other centres of activity. The Queen's saloon has a color scheme of her favorite blue. Much preparation is necessary before the royal journey starts. Long before the train is to leave, those places at which there are level-crossings the gates are locked. For half an hour before the train enters any given section all shunting operations stop and all sidings are examined to see that everything is clear of the main line. To forestall difficulties created by breakdown of signals or a sudden fog, provision is made for the progress of the train to be signalled mile by mile by hand and flag.

The largest kind of bird's egg ever known was laid by a great oyster bird called the Aegypsis, which lived in Madagascar.

#### FASHION

No. 850—Youthful Model. This style is designed in sizes 12, 14, 16, 18 and 20 years. Size 16 requires 3½ yards of 39-inch material.

No. 745—Sport Model. This style is designed in sizes 14, 16, 18, 20 years. Size 16 requires 3½ yards of 39-inch material with ¼ yard of 39-inch contrasting.

No. 981—For Mature Figure. This style is designed in sizes 16, 18, 20 years. Size 18 requires 3½ yards of 39-inch material with ¼ yard of 39-inch contrasting and 3 yards of 27-inch contrasting.

No. 618—One-Piece Frock. This style is designed in sizes 12, 14, 16, 18 and 20 years. Size 18 requires 3½ yards of 39-inch material with ¼ yard of 39-inch contrasting and 3 yards of 27-inch contrasting.

No. 769—For Woe Moderns. This style is designed in sizes 2, 4 and 6 years. Size 4 requires 1½ yards of 39-inch material with ¼ yard of 2-inch lace banding.

#### Indian Predict Trouble

Say Horror Will Follow Removal Of Skeletons at Orlilla, Ontario

"There will be horror in Orlilla, you will see." These are the ominous words of Indians on the Rama Reserve, near Orlilla, Ontario, following the removal of the ancient skeleton shortly after its discovery by workmen. The skeleton, the Indians claim, was that of a romantically-buried Indian girl, and its discovery was followed by a further find of a male skeleton within a few feet of the first.

"She was a maiden who lost her lover in war," the Indians say. "She died a maiden and she was buried away from her people, alone on a hill, so that her lover might come to her. Maybe he did come, but we do not know. But through the long years she lay there a Peeping Tom has been watching. That alone would make the Manitou mad. Now white men break up her bones, disturb her grave. There will be horror in Orlilla. You will see."

#### Recipes For This Week

(By Betty Barclay)

#### LEMON PIE WITH BREAD CRUMBS

1½ cups soft bread crumbs.  
3 tablespoons butter.  
1 cup boiling water.  
1 cup sugar.  
1½ teaspoons cornstarch.  
2 egg yolks.  
3 tablespoons lemon juice.  
Grated rind 1 lemon.

Break bread crumbs in small pieces; add butter, pour boiling water over, and let them stand until soft. Mix sugar and cornstarch; add egg yolks, well beaten, and lemon juice and rind. Combine mixtures; bake in one crust, and cover with meringue.

#### CHEESE BISCUITS

2 cups special cake flour, sifted.  
2½ teaspoons baking powder.  
1½ teaspoon salt.  
1 tablespoon butter or other shortening.  
½ cup grated cheese.  
½ cup milk and water, equal parts.  
Sift flour once, measure, add baking powder and salt, and sift again. Out in shortening and cheese. Add liquid gradually until soft dough is formed. Roll ¼ inch thick on slightly floured board. Cut with floured biscuit cutter. Bake in oven (450 degrees Fahrenheit) 15 minutes. Makes 12 biscuits.

Canada's Electric Railways  
Electric railways in Canada carried 836,729,851 passengers in 1928.

#### SUNDAY SCHOOL LESSON

MARCH 1

#### JESUS SENDING FORTH MISSIONARIES

Golden Text: "The harvest indeed is plentiful, but the laborers are few. Pray ye therefore the Lord of the harvest, that He send forth laborers into the harvest."—Luke 10:2.

Lesson: Luke 9:1 to 10:4.  
Devotional Reading: Romans 10:8-15.

#### Explanations and Comments

The Seventy Sent On A Mission, 10:1-3.—As Jesus had sent out the twelve on a special mission, Luke (10:1-6) says: "He now sent out seventy others." He now sent out seventy others. The text reads: "Now the Lord appointed seventy others; but the appointment was for a special service, not as in the case of the Twelve, for permanent work. Jesus sent these men out in companies of two, for mutual help and companionship, and bade them go into the cities which He Himself was planning to visit after their preliminary work."

The Councils Given The Seventy, 10:4-11.—These men were to travel light; they were to take with them no purse, no wallet, no shoes. They were to have no money in their girdle, which answered the purpose of a purse, and no provisions in their wallet, which were their provisions basket (the Greek word translated "wallet" also means "provisions bag"). Jesus did not want His messengers to beg their way from "outsiders," but to show a self-reliance, the sandals which they wore. Their sandals were to be worn, hence they could not stop to salute any one on the way, for Oriental salutations assume much time.

On entering a house, they were to utter the familiar, "Salute me with a friendly greeting," of "Peace be to this house." The prayer that the household might be blessed in every respect. And if a son of peace (a beautiful phrase for one inclined to peace) be there," Jesus added, "your peace shall rest upon him."

"But what were they to do when their friendly salutation was met with scorn, and the hospitality that was due a stranger was denied them?" men who are great and noble in situations where popular favor surrounds them, lose their self-reliance under the irritation of little rebuffs and slight personal opposition. Jesus understood this, and so He told the men who were to represent Him in the villages: "If your good-will is refused you, at least, shall not lose it, but it shall turn to you again, and you shall keep calm, and never be dignified under the irritation and the rebuffs."—J. R. Glover.

"What a beautiful idea, that the blessing of the peace comes from the blessing the heart that wished it as if courteous and kind words were never unwelcome!"—J. R. Glover.

The Mission Of The Seventy Crowned With Success, 10:17-20.—The Seventy returned with joy, and reported that even the demons had been subject to them in the name of Jesus. By a figure of speech (verses 18 and 19), Jesus declared that in their success He saw a prophesy of the ultimate conquest of His Kingdom over the whole world, and He gently reproached them for their self-satisfaction by adding: "In this rejoice, not that the 'spirits are subject unto you'; but rejoice that your names are written in heaven." "Do not rejoice that the Father has given you a gift, but rejoice in your relation to your God."—J. H. Jewett.

The Joy Of Jesus, 10:21-24.—Jesus Himself rejoiced in the success of His followers and gave thanks to the Father that He had hidden these things from the wise and understanding (the scribes and Pharisees thought themselves such), and revealed them to babes, the simple, unlearned Seventy.

#### Police in Canada Efficient

Law Enforcement in Canada Is Worthy Of Praise

It would appear from a survey of a report recently issued by the Canadian Government Bureau of Statistics for the calendar year 1928, that the police and law enforcement officials in Canada are on to their jobs.

Statistics collected from cities and towns having a population of 4,000 and over show that in 138 such centres with a total population of 3,359,703 the number of police officers employed was 5,004; one officer to every 671 persons. Summaries issued for infractions of the laws during the year numbered 168,932; and 127,627 arrests were made, an average of 25 arrests per officer. Offences reported to the police numbered 329,496; there were 263,332 prosecutions, 213,324 or about 81 per cent. of which resulted in convictions. Of the 11,160 automobiles reported stolen, all but 10 or over 99 per cent. were recovered. The value of other goods recovered was \$2,290,972, and the value of goods recovered was \$1,525,089.

#### Increase In Oil Production

Alberta Oil Production Is Decidedly On The Up Grade

Oil production in the Province of Alberta is decidedly on the up grade, according to the figures for 1930 recently compiled by the Provincial Government. The total output in 1930 was 1,432,944 barrels, compared with 999,152 in 1929.

The production for the month of December, 1930, was the largest for a single month that has yet been made in Alberta. 175,572 barrels, a gain of 81,318 over the corresponding month of the previous year. Most of the oil produced in Canada comes from Alberta. The Province of Ontario accounts for 125,000 barrels of the total production.

Guarded by policemen, a truck recently carried \$52,200 in cash from a bank to a loan company's headquarters in the busy part of Edmonton, England.

About one-fourth the population of Argentina is of European origin.

## About Town and Country

E. J. Anderson, B.Sc., eye sight specialist, will be at the hotel in Oyen, on Saturday, March 7.

The annual meeting of Oyen District Builders Association will be held in the municipal office, Oyen, on Saturday, March 7 at 2 p.m.

Mr. and Mrs. James Lees who have been spending a few days in Calgary, returned to Oyen last Saturday, when they were accompanied by Mrs. Roberts Sr.

Mr. J. B. Lowe, who was an Edmonton visitor last week, attending a conference of the Retail Merchants Association, returned to Oyen Sunday.

A farewell party was held at the home of Mr. and Mrs. E. D. Thygesen last night for Miss Elva Earing on the eve of her departure for her home in Prince Albert.

Mr. and Mrs. J. J. Purcell and Farther Lynett, who motored to Calgary last Monday, are expected home tomorrow.

Mr. E. B. London who left last Sunday for Calgary, was a business visitor in the city for part of this week.

Mr. and Mrs. Thomas Lees returned home today after a holiday spent at Banff and the coast.

Mr. Arthur Kerr was a business visitor in Hanna last Thursday.

### Hanna Presbytery Meet in Oyen

(Continued from page 1.)  
of the United Church, favorable consideration of deficits to the extent of money available in the M. and M. fund for that purpose.

The Presbytery expressed its appreciation to the men who had voluntarily accepted cuts or reductions in salaries to assist their congregations in this period of depression.

It was agreed that a special meeting of the Presbytery will be held in Hanna in June to confer with summer students on the mission fields.

Rev. A. R. Schragg of Three Hills, was nominated for the position of chairman of Conference of Alberta for the next year.

Following the afternoon session of the first day, a banquet was served in the church basement by members of the ladies aid to the visiting ministers, lay delegates and the local official board, after which Mr. J. P. Rorabek, superintendent of the Sunday school extended a cordial welcome to the visitors.

Rev. H. C. Woods, who presided, called in turn for a few remarks: Dr. Endicott, Rev. W. S. Tigges, Mrs. W. F. Pratt, secretary of the Sunday school, Rev. T. Powell, Mr. Chas. L. Dunford, superintendent of the board of stewards, Rev. H. D. Leitch, Mr. R. J. Scott, inspector of schools, Rev. J. V. Howey and Rev. R. W. Griffiths. A vote of thanks to the ladies, the official board and the Oyen congregation was proposed by Rev. H. D. Leitch of Drumheller.

In the evening a public meeting was held in the church. Rev. Powell of Calgary and Dr. Charles Endicott of Saskatoon, gave inspiring addresses. Two numbers by the choir male quartette, Messrs. Nisbet, Cutland, Bradford and Austin, were pleasingly rendered. Mrs. F. E. Neid playing the accompaniments. Rev. J. D. Wollatt, presided.

### Four Inch Snowfall

Commencing last Monday night about 10 o'clock snow fell and continued through the small hours of the morning, and at 7 a.m. Tuesday morning the ground was covered with a good four inches. Reports indicate that the snowfall was heavier north of town and lighter to the south. The night was calm with mild temperature.

### Temperatures

The following are the readings for the week:

	7:30 a.m.	2 p.m.	10 p.m.
W. Feb. 18	32	57	38
T. Feb. 19	36	46	31
F. Feb. 20	22	48	26

## 33,117,314 Pieces is Long Laundry

705.

Can you imagine a bewildered Chinaman trying to total a laundry list of 33,117,314 pieces?

But there is one like that. It is the total of washing done by and for the Canadian Pacific Railway Company in 1929, in Canada including hotels and bungalow-camps, sleeping and dining car service, (which also operates station restaurants), and the British Columbia Coast boat service. If one stopped to sit down and figure out the gallons of water and bars of soap required for these operations, the result might be even more astounding.

The hotel, department owns 789,821 pieces of linen; the dining and sleeping car service some 1,500,000 and the British Columbia steamships another 247,900, making a grand total of 2,538,721 pieces. These include all "flat-pieces" such as table-cloths, sheets, napkins, towels, pillow-cases, etc.; the white coats worn by the company's servants in

the various departments, and, in the hotels, a certain amount of laundry done for guests. In the hotels, too, blankets, bed-spreads, rugs, and so forth must be considered. Every piece of laundry handled becomes a laundry-piece each time it appears in the wash. This is a snail's-table-spread, may be a laundry-piece over and over again, according to the supply of linen needed and available.

The picture shows a battery of washing machines in the laundry of the Royal York Hotel, Toronto, the largest hotel in the British Empire. Similar equipment in the great chain of Canadian Pacific Railway hotels throughout Canada handles the great laundry list in various centres, with the assistance in certain districts of laundries outside the company's service. But the standard maintained is the same everywhere, immaculate cleanliness, being the motto from coast to coast, both inside and outside.
